KWIINWIN KENDI-MOOKIIWIN

Subject: Water Conservation

Aanii kina wiiyaa,

The raw water intake line at the Wiikwemkoong Water Treatment Plant is not currently functional. Our mechanical contractor is ordering and scheduling the emergency repair. In the meantime, our Infrastructure Department is working on a temporary bypass for raw water to continue to be treated. The goal at this time is to fill our reservoirs.

We are asking community members to conserve water until the raw water intake line is repaired. We will keep you updated as the work progresses, via socials as well as the WUT App. We are unsure at this time for how long these repairs are going to take.

Miigwech

Here are some easy ways to conserve water:

- Turn the faucet off while you brush your teeth or shave
- Take shorter showers (5 minutes or less)
- Flush the toilet only when necessary
